

Press Release

08.02.2022

Baker Tilly TPA expands its group of Partners

As of January 2022, Maciej Krokosinski has joined Baker Tilly TPA Partners.

Maciej Krokosiński works in the Audit and Business Consulting Department of Baker Tilly TPA, where he is responsible for transaction advisory and due diligence projects as well as financial audit services for entities operating in the energy, real estate and manufacturing sectors.

"This Partner Appointment is a big event not only for me, but also for my loved ones and my team members. I owe the opportunity to join Baker Tilly TPA Partners to each of the persons mentioned. I would like to thank them very much for this collective effort.

My success would not be possible without the trust of my clients and their belief in the significant added value that my team and I bring to the businesses they run. This has enabled to build a substantial and sustainable portfolio of clients and projects in a relatively short period of time, which contribute to Baker Tilly TPA's rapid growth.

I also cannot emphasize enough the role of other Partners of Baker Tilly TPA and TPA Poland who have always inspired me to improve the operational efficiency of our advisory services.

I am proud that my knowledge, experience, as well as full commitment to each project were appreciated. I intend to continue my efforts to develop Baker Tilly TPA brand in Poland," said Maciej Krokosiński.

"I am glad that the Audit and Business Consulting Department, which we have been consistently developing for several years under the international brand Baker Tilly TPA (formerly TPA Poland), now has another partner. Maciej has undoubtedly contributed to the development of the department and, consequently, to keeping our company on a dynamic growth path. Our rapid development, based on a great team of Partners, is also noticed by clients who increasingly often and willingly choose our company," commented Krzysztof Horodko, Managing Partner, Baker Tilly TPA.

It is worth reminding that Baker Tilly TPA provides comprehensive audit and business advisory services (including transactional), combining top quality solutions with international experience and the best regional market practices. The company is a member of TPA's international advisory group and Baker Tilly International's global network.

Baker Tilly TPA's offer is complemented by tax advisory, accounting and payroll, real estate and renewable energy advisory as well as HR consulting services, provided under the TPA Poland brand. The Group also provides legal services through Baker Tilly Legal Poland.

On behalf of the Partners of Baker Tilly TPA and TPA Poland we congratulate on the well-deserved promotion. We would like to wish Maciej more interesting projects, satisfaction with his duties and many successes.
